Recommendations for 2020 Early Voting Plan

Dear Members of the Wilson County Board of Elections,

We write to you today to provide you with information that we believe will assist you in developing an early voting plan that best serves the constituents of your county. We recognize that the challenge that faces you and your staff—conducting a safe and fully participatory election during a global pandemic—is one of the greatest magnitude, and we want to help you confront that challenge with as many resources and as much support as possible. These recommendations take into account the Emergency Order issued by the Executive Director of the North Carolina State Board of Elections on July 17, 2020, which now allows county boards of election to open early voting sites earlier than 8:00am and/or have sites stay open later than 7:30pm and requires a minimum of ten hours of early voting for each of the first and second weekends of the 17-day early voting period.

Executive Summary

As discussed in more detail below, based on voting and demographic data specific to Wilson County and in anticipation of the challenges introduced by the ongoing public health crisis, we recommend for the upcoming general election that the Board (i) offer at least three early voting sites for the upcoming general election, one more than the two offered in 2016; (ii) ensure that an early voting site in the city of Wilson is offered and consider offering at least one site north or northwest of Wilson city, where a substantial number of voters reside; and (iii) expand weekend voting hours on both Saturdays and Sundays.

Over the coming months, our team of advocates will work with civic engagement organizations, faith groups, and community leaders to solicit feedback on early voting sites. These individuals will attend Board of Election meetings, provide public comment, and may reach out to you with questions and requests. We will also incorporate this information into future early voting plan recommendations.

The COVID-19 Pandemic and Potential Changes to State Law

All North Carolinians—voters and election administrators alike—are facing unprecedented circumstances due to the COVID-19 pandemic. The North Carolina State Board of Elections has predicted that absentee-by-mail voting in this year’s general election could hit 40%, up from only 4% in 2016. Assuming that number is accurate for planning purposes, that means that a majority of voters will still vote in-person. However, unlike in previous years, election officials and poll workers now have social distancing and disinfectant procedures to take into account when conducting early in-person voting. This means that, even if in-person voting during the early voting period will be lower than in 2016, offering more sites and days is more critical than ever to keep in-person voting safe and prevent voters who are socially distancing from turning away from the polls due to long lines and crowding. For public health reasons, counties should be seeking to have enough sites and days for in-person voting to keep the rate of voters (voters per hour per site) low so that voters can maintain distance while waiting to vote and to ensure that poll workers have time to employ proper disinfecting procedures between voters. This will not be possible if there are too many voters seeking to use an early voting site at one time.

Additionally, we urge you to at least make contingency plans for an early voting period unencumbered by current state law, which is under challenge. Democracy North Carolina (“DemNC”) is a plaintiff (represented by the Southern Coalition for Social Justice (“SCSJ”) among others) challenging certain aspects of the current statutory election scheme as creating an unconstitutional burden on the right to vote in light of the current public health crisis. The part of that lawsuit most relevant here is our challenge to the uniform hours requirement, created by Senate Bill 325 in 2018 and in effect in the 2018 general election and 2020 primary elections (in addition to intervening municipal elections). We are seeking to have this law (and others) enjoined for the 2020 general election to allow county boards the flexibility to offer more sites when more voters are expected to turn out to vote (and thus reduce lines and wait times and increase the efficacy of public health measures) and not waste precious county resources keeping early voting sites open at hours it is known that voters will not utilize.

We understand that the imposition of the uniform-hours requirement has made it more difficult for county boards, including yours, to craft an early voting plan that best serves the geographic and demographic needs of your county, and that maintaining sites when all sites have to be open the same days and hours can have a significant budgetary impact on your county. In the litigation described above, our goal is to avoid this situation.

That being said, even with those unnecessary restrictions, we believe that it still remains your duty to ensure that all voters in your county have easy access to one-stop early voting sites and times, regardless of the outcome of the litigation. We recognize that by having to keep every site open a certain number of hours each day during the weekdays, and having to have all sites open if any site is open on the weekend, could create some financial challenges for the county, but the cost of a fair and accessible democracy can never be too high.

We understand that for many counties, one of the consequences of the COVID-19 pandemic has been budget concerns and potential shortfalls. Without dismissing the challenge that

presents you as an election board, we urge you to remember that access to the franchise is both the central service offered by counties and mandated by state and federal law. If counties do not conduct an election that allows full and safe participation, accountability and oversight on other budgetary decisions will be impeded. We know that the county boards of elections do not set budgets, but your county commission is obligated to fully fund your efforts to conduct an election compliant with all federal and state constitutional and statutory demands. *See* N.C.G.S. § 163-37 (requiring county commission to “appropriate reasonable and adequate funds necessary for the legal functions of the county board of elections, including reasonable and just compensation of the director of elections”); *see also*, NC SBOE Numbered Memorandum 2016-06; *Graham County Board of Elections v. Graham County Board of Commissioners*, 212 N.C. App. 313, 712 S.E.2d 372 (N.C. App. June 7, 2011) (holding that the grant of authority to the county commission on budget issues is limited by more specific statutory delegations of authority to the county board of elections). If the county commission provides inadequate funding, they are in violation of state law and can be forced to make the necessary appropriations. And, while the county board of elections can go back to the county commission with further evidence of financial shortfalls in conducting elections and request further appropriations, *see* N.C.G.S. § 159-15, the burden of doing so while conducting an election during a pandemic is significant. To the extent the board of elections is predicting near-certain costs now, the county commission should make appropriations to address those needs rather than burden the board of elections later.

We strongly urge that, notwithstanding the additional cost, the county treat the 2 sites offered during the 2016 election as the baseline number of sites that should be offered this year, and endeavor to offer 3 sites for the upcoming general election. We recognize that this may require going back to the Wilson County Board of County Commissioners to readdress the budget for this election: please keep in mind that we believe the North Carolina State Board of Elections has the authority to force you to offer additional voting sites and hours if there is no unanimous plan and the plans under consideration by the county board offer too few voting opportunities in ways that may, for instance, disproportionately disadvantage voters of color. The more prudent course of action is to plan on offering a fulsome early voting plan now, and not be forced to scramble last minute to cover costs if the State Board requires you to offer more hours or sites. We also strongly urge you to request a calendar of events for early voting sites to ensure you are able to prepare for any overlapping events, and specifically to mitigate any potential impact those events may have on voter turnout.

However, we do recognize that budgetary concerns may still come into play. With that in mind, we think there are several priorities this Board should embrace in the development of an early voting plan for the November 2020 election.

1. Prioritizing Highly Used Sites with Near High Concentrations of Voters

While we do think it is possible to offer 3 sites in 2020, if it turns out that is not feasible, we ask that this Board take both a data-driven and community-informed process by which it decides which sites to open. Appended as **Exhibit A** and **Exhibit B** are charts of voter usage per site for the 2 sites utilized in the 2016 general election and 2018 mid-terms, which (as indicated below) are both located in the central part of the county in and around the city of Wilson. While

of course some sites available in 2016 or 2018 may no longer be available, either due to COVID-19 or other extenuating circumstances, we urge you to continue to offer two sites within Wilson city in the upcoming election to serve those early voters.

Additionally, looking at the geographic dispersal of the early voting sites in 2016 and 2018 (**Exhibits C and D**, respectively), when compared to the precincts with the highest number of voters in 2016 and 2018, (**Exhibits E and F**, respectively), it is clear that a substantial number of the county’s voters are located in north and northwest of the city of Wilson. This holds true for Wilson County’s Black voters (**Exhibits G and H**). While ensuring geographic dispersal of sites across the county is something that a county might prioritize when funding is not as dire an issue as it may be this election, we urge you to focus on serving the greatest number of voters possible given the resources you may have and therefore adding an additional site in this section of the county.

2. Prioritizing Days that Wilson County Voters Have Shown to Prefer and that Have Black Voter Usage

Secondly, we also strongly recommend that you prioritize offering fulsome voting hours on days that are both highly utilized by voters in the county overall and that Black voters disproportionately use. This does two things: (1) ensures that the county is not wasting money and is operating early voting sites in a manner likely to reduce lines and wait times on Election Day, and (2) minimizes any burden on Black voters that might give rise to claims under the Voting Rights Act.

The below table details the total number of voters in Wilson County during the 2016 election, and the percentage of Black voters during each day of early voting.

Day	Th Oct 20	Fri Oct 21	Sat Oct 22	Sun Oct 23	Mo Oct 24	Tu Oct 25	W Oct 26	Th Oct 27	F Oct 28	Sat Oct 29	Sun Oct 30	M Oct 31	Tu Nov 1	W Nov 2	Th Nov 3	F Nov 4	Sa Nov 5
Total Voters	2161	1913	788	N/A	2090	1911	1689	1607	1629	N/A	905	1540	1500	1545	1650	2390	1191
% Black Voters	57%	49%	51%	N/A	49%	44%	39%	40%	36%	N/A	36%	42%	38%	38%	39%	37%	47%

This table indicates a steady rate of voting throughout the early voting period, with increased voting on the last Friday and Saturday of early voting. The first few days of the early voting period were used at higher rates by the county’s Black voters as well. Finally, this table indicates that both Saturday and Sunday voting hours (which were shorter than those offered during the week) were also used at significant rates by voters. Accordingly, we recommend that the Board offer robust hours at the beginning of the early voting period, as well as both Saturday and Sunday voting hours on both weekends during the upcoming election to ensure opportunities for voters that will allow for social distancing and reduced lines. Increasing the overall number of

early voting days and hours offered will decrease the possibility of long lines and crowded polls, which can otherwise lead to prolonged potential exposure to COVID-19.

If you have any questions as you consider early voting plans (for the first time or revising them in light of litigation), or should you be unable to agree on a unanimous plan, please do not hesitate to reach out to us. Our goal is to ensure that the one-stop early voting plan adopted by or ordered into effect for Wilson County is one that ensures that voters are able to safely access their fundamental right to vote notwithstanding the current public health crisis.

Sincerely,

Allison Riggs
